Quantcase Privacy Policy

Oct 28, 2026

Overview

Apart from website analytics cookies, Quantcase collects only your name and email, plus an internal identifier that confirms your subscription. We never see or store your card or bank details. This policy explains what we collect, why, who handles it, and the rights you have.

It applies to quantcase.ai, the Quantcase apps, and the Quantcase connector for Claude (together, the "Services"). The Services are operated by FU (First Unicorn) Ventures Private Limited, 4508, Basement and First Floor, Galleria Market, DLF Phase IV, Gurugram, Haryana, India ("Quantcase", "we", "us"). Under India's Digital Personal Data Protection Act, 2023 ("DPDP Act"), we are the Data Fiduciary for the personal data described below.

What we collect

We collect only the data below, to run your account and subscription and to understand how our website is used.

Data	Where it comes from	What we use it for
Name	You, at sign-up	Addressing you and identifying your account
Email address	You, at sign-up	Signing you in, receipts, service notices, support replies
Account identifier	Generated by us	Checking that your subscription is active
Payment confirmation (order and payment IDs, plan, amount, status, date)	Razorpay	Activating, renewing and ending your subscription
Website usage data (pages visited, clicks, scrolling and heatmaps), which does not identify you personally	Cookies and analytics tools on our website, including Microsoft Clarity	Understanding how the site is used and fixing usability problems
server and connector request logs with IP address, time and request details	Your browser or the Claude connector	Security, abuse prevention and debugging

What we do not collect

We do not collect or store your card, UPI or bank details, government ID numbers, phone number, precise location, contacts, or any financial holdings or portfolio data. We do not use your data for advertising, we do not build profiles to sell, and we do not sell or rent personal data to anyone.

Why we use your data

We use your data only to provide and secure the Services, and we process it with your consent or for other uses the DPDP Act permits.

- **Provide the Services:** create your account, sign you in, and confirm your subscription.
- **Billing:** activate, renew or cancel your plan and keep the payment and tax records the law requires.
- **Communicate with you:** receipts, security and service notices, and replies to your support requests.
- **Protect the Services:** detect fraud, abuse and unauthorised access, and understand how the website is used so we can fix problems and improve it.
- **Meet legal duties:** respond to lawful requests and keep records Indian law requires.
- **Product updates:** We do not send unsolicited product or marketing emails.

You give consent when you create an account and accept this policy. You can withdraw it at any time, as described under Your rights.

Using Quantcase through Claude

When you use the Quantcase connector in Claude, we receive only your sign-in and the parameters of each request, never your conversations.

You connect by signing in to your Quantcase account through a standard OAuth 2.0 login over HTTPS. After that, Claude (a service operated by Anthropic) sends requests to our server on your behalf, for example a company ticker or a screening filter.

- **What we receive:** an access token tied to your account identifier, so we can confirm your subscription, and the parameters of each request.
- **What we do not receive:** your Claude conversations, memory, chat history or uploaded files. We do not ask for them.
- **Request logs:** we keep request logs for up to 15 days, used only for security, rate limiting and debugging
- **Data-issue reports:** if you report a data problem through the connector, we receive the text of that report. Please do not include personal information in it.

What you type to Claude, and the answers it gives, are handled by Anthropic under Anthropic's privacy policy, not by us.

Payments

All payments are processed by Razorpay, and you enter your payment details on Razorpay's checkout, not on our site.

Razorpay collects and handles your card, UPI or bank details under its own privacy notice, which applies to the data it collects from you (Razorpay's buyer privacy notice). From Razorpay we receive only a confirmation of the payment: order and payment IDs, plan, amount, status and date. We use this to turn your subscription on, renew it or end it.

Who we share data with

We share personal data only with service providers that help us run the Services, and never sell it.

- **Razorpay:** payment processing, as described above.
- **Hosting and infrastructure:** Google Cloud Platform (GCP) and Amazon Web Services (AWS), currently in their Mumbai, India regions.
- **Website analytics:** Microsoft, through Clarity.
- **Email delivery:** Google (Gmail), for receipts and service notices.
- **Authorities:** we disclose data only when the law requires it or to protect our legal rights.
- **Business changes:** if Quantcase is merged or sold, your data may move to the new owner, who must honour this policy.

These providers may use your data only to perform their services for us.

Security

We protect your data with HTTPS on all traffic and OAuth 2.0 for sign-in, and we limit access to those who need it to run the Services. All data is encrypted in transit and at rest.

If a personal data breach affects you, we will tell you and the Data Protection Board of India as the law requires, describing what happened and what you can do.

Your rights

You can ask us to show, correct or erase your data, or withdraw your consent, by emailing tech@quantcase.ai. Under the DPDP Act you have the right to:

- **Access:** get a summary of the personal data we hold about you and how we process it.
- **Correction and completion:** have inaccurate or incomplete data corrected.
- **Erasure:** ask us to delete your data, unless the law requires us to keep it.
- **Withdraw consent:** at any time, as easily as you gave it. We may then be unable to provide your subscription.
- **Grievance redressal:** raise a complaint with us about how we handle your data.
- **Nominate:** name another person to exercise these rights if you die or become unable to.

We will verify your identity through your account email and reply within 30 days. If we do not resolve your complaint, you may approach the Data Protection Board of India.

Children, cookies and transfers

The Services are for adults. They are not meant for anyone under 18, and we do not knowingly collect data from children. If we learn we have, we will delete it.

Cookies: Our website uses essential cookies to keep you signed in, and analytics cookies, including Microsoft Clarity, which helps us see how people use the site, such as which pages and buttons they use. We do not use advertising cookies . You can accept or reject non-essential cookies in our cookie banner and change your choice in your browser settings at any time.

Transfers outside India: Our data is currently hosted in Mumbai, India. That may change as we scale, and some providers, such as our analytics provider, may process data outside India. We transfer data only to countries the Government of India has not restricted, and require providers to protect it.

Contact and changes

For any privacy question, request or complaint, email tech@quantcase.ai, call 0124-4299462, or write to FU (First Unicorn) Ventures Private Limited, 4508, Basement and First Floor, Galleria Market, DLF Phase IV, Gurugram, Haryana, India.

If we change this policy, we will update the date at the top and email you about material changes before they take effect.
